The Separation Method for Removing of Colloidal Particles from Raw Water

Teaching Materials Using Case Studies by Claire Davis and Elizabeth Wilcock. A booklet in the 12 Guides to Lecturers series published by the UK Centre for Materials Education. This guide explores the use of the case-based approach to support engineering education and, more specifically, their role in Materials Science related Higher Education courses. It highlights the good practice the authors have identified, and also discusses their experiences (both good and bad) of the adoption and ...

2.1.5 Analytics Node. Figure 7 below shows the internal structure of an analytics node. An analytics node communicates with applications using a north-bound REST API, communicates with other analytics nodes using a distributed synchronization mechanism, and with components in control and configuration nodes using an XML-based protocol called Sandesh designed specifically for handling high volumes of data.
