

efficient partitioning of dynamic pdf

Equivalence partitioning (EP) is a specification-based or black-box technique. It can be applied at any level of testing and is often a good technique to use first.

What is Equivalence partitioning in Software testing?

Technically, because every boundary is in some partition, if you did only boundary value analysis you would also have tested every equivalence partition.

While testing why it is important to do both equivalence partitioning

An octree is a tree data structure in which each internal node has exactly eight children. Octrees are most often used to partition a three-dimensional space by recursively subdividing it into eight octants.
