

### **industrial pollution in japan pdf**

industrial pollution and their control measures are briefly discussed in this chapter. In recent years, the sustainable development concept has been widely recognized, which has promoted the implementation of integrated management of industrial production. The development of "industrial ecology" aims to provide theories and methods to harmonize the industrial sectors with the biosphere, that may bring solutions of sustainable development to the industry and society. 1. Introduction ...

### **POINT SOURCES OF POLLUTION: LOCAL EFFECTS AND ITS CONTROL Vol. I**

Industrial Pollution 7.76 In order to address the issue of environmental pollution, a World Bank assisted programme for capacity building was launched in 1997 and is in operation details of which are given in Box 7.7. 7.77 Year wise progress in the implementation of pollution control measures in the 17 categories of highly polluting industries is given in table 7.18. As on September 30, 2001, out of the total 1,551 large and medium industries identified in 1992 in the 17 categories of highly ...

Environmental pollution in Japan has accompanied industrialization since the Meiji period (1868-1912). In the 1960s diseases caused by factory-emitted water and air pollution were found in areas throughout Japan. The strict environmental protection measures that were subsequently implemented have reduced pollution caused by such emissions. Important problems remain to be solved, however, with action being necessary to, for example, reduce greenhouse-gas and particulate-matter emissions and ...

The Japanese, however, have developed a novel and very effective way of eliminating as much pollution as possible out of making cars, smelting steel, refining oil and other industrial Figure 1 In Japan, where energy efficiency is a mania, "campaigns" are

### **Reducing Industrial Pollution - Curtis A. Moore**

Due to industrial activities, a variety of poisonous gases like NO, SO<sub>2</sub>, NO<sub>2</sub>, SO<sub>3</sub>, Cl<sub>2</sub>, CO, CO<sub>2</sub>, H<sub>2</sub>SO<sub>4</sub> etc.- volatile chemicals, dusts etc., are liberated into the atmosphere causing acute pollution problem. Besides, the accidental leakage of poisonous gases can cause havoc.

### **Industrial Pollution: Types, Effects and Control of Industrial Pollution**

factors that caused severe industrial pollution in Japan. Progression of water pollution As the Japanese economy rapidly grew, water contamination became more serious at a high speed. The Sumida River, for example, had clean water in which many kinds of fish lived in the late 1940s through the 1950s. The river also served as a place of rest and recreation for people and provided a livelihood for fishermen. Since around 1955, however, the river it has become a sewage laden canal in which fish ...
