

### **international human rights norms pdf**

International human rights law (IHRL) is the body of international law designed to promote human rights on social, regional, and domestic levels.

### **International human rights law - Wikipedia**

Human rights are moral principles or norms that describe certain standards of human behaviour and are regularly protected as natural and legal rights in municipal and international law. They are commonly understood as inalienable, fundamental rights "to which a person is inherently entitled simply because she or he is a human being" and which are "inherent in all human beings", regardless of their nation, location, language, religion, ethnic origin or any other status. They are applicable ...
