All information presented here is based on primary sources, mainly original, unmodified Apple disks and other Apple documentation. Anyone interested in this history must be especially careful when reviewing the information presented in Apple Knowledge Base article TA31885, Macintosh: System Software Version History, a secondary source that contains major errors:

Apple Macintosh before System 7

The family of Macintosh operating systems developed by Apple Inc. includes the graphical user interface-based operating systems it has designed for use with its Macintosh series of personal computers since 1984, as well as the related system software it once created for compatible third-party systems.

Level Flight at Cl=x.xx - This appears only on the in-flight analysis, and only if the wing area and airframe weight were specified. It indicates the speed at which the aircraft will neither gain nor lose altitude with the throttle set appropriately (this will be indicated as a percentage in the Stats section at the top of the window), and the control surfaces at neutral.
