Cries and Whispers is a group exhibition presenting Swedish contemporary painting and sculpture. Here, eight artists, born in the 60s, 70s and 80s, are invited to represent a figurative art movement that has received great attention in Sweden and internationally.

Carl Hammoud | Galleri Magnus Karlsson

The Z80 CPU is an 8-bit based microprocessor. It was introduced by Zilog in 1976 as the startup company's first product. The Z80 was conceived by Federico Faggin in late 1974 and developed by him and his then-11 employees at Zilog from early 1975 until March 1976, when the first fully working samples were delivered.

Zilog Z80 - Wikipedia

Federico Faggin, dopo aver lavorato sull'8080, lasciò Intel alla fine del 1974 per divergenze con la dirigenza: questa, infatti, era ancora troppo focalizzata sulla produzione di chip di memoria e considerava i microprocessori solo come prodotti accessori, utili per vendere più RAM. Faggin, invece, intravedeva in essi una potenzialità d'impiego molto più vasta, grazie alla loro possibilità di essere programmati per impieghi generali.
