Origins. The philosophical roots of participatory rural appraisal techniques can be traced to activist adult education methods such as those of Paulo Freire and the study clubs of the Antigonish Movement. In this view, an actively involved and empowered local population is essential to successful rural community development.

This article discusses the theory and practice of so-called participatory governance. It explains that participatory governance is a variant or subset of governance theory which puts emphasis on democratic engagement, in particular through deliberative practices. Participatory governance seeks to deepen citizen participation in the governmental process by examining the assumptions and practices of the traditional view that generally hinders the realization of a genuine participatory democracy.
