Pensions at a Glance 2013: OECD and G20 Indicators

Public spending enables governments to produce and purchase goods and services, in order to fulfil their objectives – such as the provision of public goods or the redistribution of resources. In this entry we study public spending through the lens of aggregate cross-country data on government expenditures. We begin with an analysis of historical trends, and then move on to analyze recent developments in public spending patterns around the world.

1.1. Introduction The Public Expenditure and Financial Accountability (PEFA) program provides a framework for assessing and reporting on the strengths and weaknesses of public financial management (PFM) using quantitative indicators

PEFA Framework for Assessing Public Financial Management

The private finance initiative (PFI) is a way of creating "public-private partnerships" (PPPs) where private firms are contracted to complete and manage public projects. Developed initially by the governments of Australia and the United Kingdom, and used extensively there and in Spain, PFI and its variants have now been adopted in many countries as part of the wider programme of privatisation and financialisation, and presented as a means for increasing accountability and efficiency for ...
