Recent developments in the tuna industry Stocks, fisheries, management, processing, trade and markets by Makoto Peter Miyake Visiting Scientist National Research Institute of Far Seas Fisheries

Recent developments in the tuna industry

Despite the fact that non-viral nucleic acid delivery systems are generally considered to be less efficient than viral vectors, they have gained much interest in recent years due to their superior safety profile compared to their viral counterpart. Among these synthetic vectors are cationic polymers, branched dendrimers, cationic liposomes and cellpenetrating peptides (CPPs). The latter represent an assortment of fairly unrelated sequences essentially characterised by a high content of basic ...

Recent Developments in Peptide-Based Nucleic Acid Delivery

Geant 4 is a software toolkit for the simulation of the passage of particles through matter. It is used by a large number of experiments and projects in a variety of application domains, including high energy physics, astrophysics and space science, medical physics and radiation protection.

Recent developments in Geant4 - ScienceDirect

This note takes stock of recent developments in global car production and sales and explores the extent to which they are contributing to the softening of global activity in the second quarter of 2011 .
