An apparatus and method for continuously searing and/or branding the surface of and continuously cooking a food product wherein the cooking oven is different from the searing and/or branding apparatus. At least a portion of the vapor product produced in the searing and/or branding apparatus is preferably delivered into the oven such that the food product is cooked in an environment comprising the vapor product from the searing and/or branding apparatus. The vapor extraction rate from the ...

the infernal method by corrosives, which in Hell are salutary and medicinal, melting apparent surfaces away, and displaying the infinite which was hid.â€™™ The majority of posters in this exhibition were not printed by Blakeâ€™™s technique, which physically, and metaphorically, corrodes a surface in order to reveal an inner â€™™truthâ€™™. They were however printed with his intention of burning through superficiality with the proposition that another world is possible. When the 48th and final ...
